

Facebook Messenger App

Want to chat friends on Facebook? Now you can do so right from your phone with the Facebook Messenger app. Please keep in mind that this requires you to have a Facebook account as well as to download the Facebook Messenger app (separate from the general Facebook app).

1. Open the Facebook Messenger app.

2. Let's look at some features from each icon located on the bottom bar.

- a. Select "Recent" to view past conversations. Select the appropriate person to continue a chat. If you would like to start a new chat, select the notepad icon and type a new name in the "To" box.

- i. This letter icon is the typical typing keyboard to write a message.
 - ii. The camera icon allows you to take a picture to send.
 - iii. The photo icon gives you the opportunity to send a photo from your camera album and photo albums.
 - iv. The emoticon icon allows you to express your feelings in the form a comic-like sticker.
 - v. The microphone icon allows you to send voice messages.
 - vi. Lastly, the thumbs up icon just sends Facebook's signature thumbs up sticker.
- b. Begin group chats by selecting "Create." Here, you can have family conversations and chats with different friend groups.

- c. "Messenger" shows you other friends who have the Messenger app. "Active" shows you friends who are online. To view other people who are online, make sure you are too by switching the button, so it is green.
