## Internet Tip—How to Check Internet History

Sometimes you want to find a certain website that you visited before.

1. First go to the internet (Google, Firefox, Bing).
2. On the top right corner there are 3 small horizontal bars.
3. Click on “History”.
4. A window with all of the websites you have visited opens up.
5. The websites are organized by date and time (see right).
6. You can click on one of the links to a past site you visited if you want to go back there again without having to type in the website address!

Today - Sunday, November 15, 2015

<input type="checkbox"/> 3:07 PM	 timestamp-message-id
<input type="checkbox"/> 3:07 PM	 <a href="https://www.google.co">https://www.google.co</a>
<input type="checkbox"/> 3:07 PM	 imessage timestamp -
<input type="checkbox"/> 3:07 PM	 <a href="https://www.google.co">https://www.google.co</a>
<input type="checkbox"/> 3:07 PM	 Google <a href="http://www.google.c">www.google.c</a>

## iPhone/iPad Tip—How to See When Texts are Sent/Received

Often it may be important to know when a text message was sent to you or when you sent a message to someone else.

1. First, open the iMessages App.
2. Open a certain message conversation with someone.
3. On the screen place and hold one finger and move it horizontally from right to left (“swiping” it).
4. Keep your finger there to see the timing of the messages (see right).
