Windows Tip—Enlarging Words on a Screen

Often times words on the computer screen are too small to read, to solve this problem one can make the text on the screen larger.

1. Click on the start windows circle at the bottom left of the screen.
2. The click on Control Panel on the left side .0
3. In the 3rd column and 4th row click on Display
4. Then 3 options will appear
5. Click on the last bubble, Large to increase the font size
6. Then click apply to apply this setting

iPhone/iPad Tip—News Feature on iOS 9

iOS 9 is Apple's latest software for the iPhone and iPad. A great new feature it has is real-time news updates without needing an app or going to the Internet.

1. To look at news quickly scroll left until you past the main home page look at the bottom of the left most page
2. You will find news based on your searches
3. Also if you press on an article you can read more about it
